

mosaic **B**ATHTUB applications

artREDEFINED

The sumptuousness and elegance of Pandora bathtubs are underscored by the form, a regal retro style, that lends itself perfectly to mosaics and its infinite chromatic variations. A decoration, whether geometric, floral, or stylized, create a note of uniqueness that is enhanced in the dialogue between the details: the feet resembling a lion paw, the rounded contours, the form of the bathtub. The modern style has not been forgotten, with bathtubs characterized by a simple geometry and the mosaic decoration bold in graphics and colors. A complete display of how the creative versatility of Pandora can interpret time and matter in every possible form.
