Granite has been a million years in the making. Since it's a natural stone, it can withstand heat and scratches from day-to-day use. When properly sealed, it's stain- and bacteria-resistant, making it the perfect surface for food prep.

Benefits

Granite brings natural beauty to your kitchen, with each slab being unique. You'll get a one-of-a-kind variation along with plenty of other advantages.

- Resists heat and scratches
- Resists stains and bacteria once sealed
- UV-resistant for outdoor use
- Ideal for food prep

Considerations

With all the benefits granite countertops have to offer, there are some things to consider when deciding.

- May have visible seams
- Requires annual sealing and maintenance
- Susceptible to fractures
- May be difficult to repair
